

Schedule for the Oberwolfach Seminar on Random Networks, 19–24 May 2013

4 mini-courses:

- (1) Shankar Bhamidi: *Dynamic network models.*
- (2) Asaf Nachmias: *Percolation in high dimensions.*
- (3) Remco van der Hofstad: *Routing on random networks.*
- (4) Frank den Hollander: *Random walks in dynamic random environments.*

The courses by SB and AN focus on random networks, the courses by RvdH and FdH on random processes on random networks.
