

## **Abstract**

Oberwolfach Workshop:

### **Representations of Finite Groups**

Dates:

**24 March - 30 March 2019** (Code: 1913)

Organizers:

**Joseph Chuang, London**  
**Meinolf Geck, Stuttgart**  
**Radha Kessar, London**  
**Gabriel Navarro, València**

The representation theory of finite groups has grown into a broad area of research closely related to many areas of mathematics, including Lie theory, algebraic geometry, homotopy theory, homological algebra, number theory and combinatorics. The aim of the meeting is to bring together experts across the breadth of the subject.
