

Oberwolfach Online Seminar: Set Theory

Organizers:

Ilijas Farah, Toronto
Ralf Schindler, Münster
Dima Sinapova, Chicago
W. Hugh Woodin, Cambridge MA

The Oberwolfach Workshop on Set Theory (5 - 11 April 2020, ID 2015) had to be cancelled and postponed because of the covid-19 crisis, unfortunately.

The MFO and the Organizers are glad to set up an **Oberwolfach Online Seminar** in order to maintain scientific links and communications in the community of the workshop.

To this end, the MFO will contact all invitees of the workshop in order to collect link addresses of recorded talk and/or slides via the organizer Ralf Schindler, so that the organisers can set up a "virtual workshop program". Moreover, extended abstracts (1-3 pages) of these online talks will be publish in our Oberwolfach Reports

<https://www.mfo.de/scientific-program/publications/owr>

as for a regular Oberwolfach Workshop.

Soon, the MFO will publish a document on the website of the workshop

https://www.mfo.de/occasion/2015/www_view

containing the links to the talks/slides and further information.

Oberwolfach, April 9th, 2020
